

Revised definition of 'campus' from 1 March 2008

A campus is a service that is one and two and can include three:

1. NHS provided long-term care in conjunction with NHS ownership/management of housing (residents do not have an independent landlord and housing rights)
2. Commissioned by the NHS
3. People who have been in assessment and treatment services more than one year, who are not compulsorily detained or undergoing a recognised evidence based treatment programme

People living in such accommodation are technically and legally NHS patients.

The following cases would not be enough on their own to exclude services from re-provision:

- i) the properties being small houses in a dispersed setting
- ii) an NHS discharge process having been followed

People who live in settings registered with CSCI are not campuses.
